

THE ULTIMATE HERITAGE HAULER COMBO

2005 Mercedes-Benz G-Wagon + Wingho Auto “Targa Roof” Trailer

Includes exclusive rights to build additional Wingho trailers

Some pairings are practical. Others are iconic. This one is both. This is not just a hauler. It is a piece of Canadian automotive innovation with Porsche-level pedigree.

Offered as a rare, museum-worthy pairing, this 2005 Mercedes-Benz G Wagon, from the most collectible mechanical era, is matched with the Wingho Auto Targa Roof Trailer, a one-off engineering concept originally designed to tow Porsches and Wingho’s own 928 racing cars.

A G-Wagon with Purpose: THE LAST TRUE GELÄNDEWAGEN

This 2005 G-Wagon is the last generation before Mercedes softened the edges. It’s the era collectors seek:

- **Hand-built**
- **Military-derived chassis**
- **Timeless box-steel architecture**
- **True low-range capability**
- **Mechanical honesty with modern comfort**

It’s a vehicle that doesn’t just tow; it **commands**.

The Wingho Trailer: A Design Statement

Wingho Auto has long been synonymous with visionary Canadian automotive design. Their trailer is no exception:

- Sculpted aluminum and composite construction
- Aerodynamic profile inspired by Wingho’s museum-displayed creations
- Lightweight, rigid, and engineered for long-distance stability
- A rare piece of functional automotive art

This is not a mass-market trailer. It is a **coachbuilt hauler**, designed with the same philosophy that shaped Wingho’s one-off museum cars.

THE ULTIMATE HERITAGE HAULER COMBO

A Combo with Legacy and Future Potential

This sale includes the **rights to build additional Wingho trailers** based on the original design. This transforms the purchase from a simple acquisition into an **opportunity**:

- Launch a boutique trailer line
- Create limited editions for collectors
- Pair future builds with luxury SUVs or EVs
- Expand Wingho's design legacy into a new chapter

This is more than a G-Wagon. More than a trailer. More than a business opportunity.

It is a **heritage combo**, a functional sculpture paired with one of the most respected off-road icons ever built, ready for adventure, ready for display, and ready for the next visionary who understands the value of design lineage.

THE ULTIMATE HERITAGE HAULER COMBO

THE WINGHO “TARGA ROOF” TRAILER: A DESIGN ICON

Originally engineered to haul **Porsche 928 race cars**, the Wingho trailer is a masterpiece of unconventional thinking:

- **Targa Roof design** a removable upper section allowing easy loading of low sports cars
- So innovative that **Mr. Porsche himself commented on its cleverness** when he first saw it at the Porsche Parade
- Sculpted aluminum and composite construction
- Aerodynamic profile inspired by Wingho’s museum-displayed creations
- Lightweight, rigid, and engineered for long-distance stability

This is not a utility trailer. It is **functional sculpture**.

BACKED BY A GOVERNMENT R&D GRANT

This trailer was not a hobby project. It received a **\$100,000 government research and development grant** specifically to explore unconventional trailer architecture and advanced maneuvering concepts. The result is a hauler decades ahead of its time.

REMOTE MANEUVERING SYSTEM

One of its most remarkable features:

- **A remote-control system that allows the trailer to be maneuvered while unhitched**
- Position it precisely in tight spaces
- Align it perfectly with a vehicle
- Move it effortlessly without a tow vehicle

This is engineering brilliance, and almost unheard of in trailer design.

A COMBO WITH LEGACY AND FUTURE POTENTIAL

Included with this sale are the **rights to build additional Wingho trailers** based on the original design.

This transforms the purchase into a **business opportunity**:

- Produce limited-edition Wingho trailers
- Create a boutique line for Porsche collectors, overlanders, or design enthusiasts
- Extend Wingho’s design legacy into a new chapter
- Pair future builds with luxury SUVs or EVs

You’re not just buying a trailer. You’re acquiring **intellectual property** with heritage and market potential.

THE ULTIMATE HERITAGE HAULER COMBO

THE OFFERING:

- **2005 Mercedes-Benz G-Wagon**, collector-grade, ideal tow vehicle
- **Wingho Auto Targa Roof Trailer**, Porsche-heritage, R&D-funded, remote-maneuverable
- **Exclusive rights to reproduce the Wingho trailer design**

A rare chance to own and continue a piece of Canadian automotive history.
